Board Membership

The Social Service Board provides a multiple array of opportunities for caring people to express their needs to put Ethics into action.

People who desire to become a Board member are invited to attend a monthly Board meeting and see how its members give their leadership to ongoing projects and create new ones as their need arises.

Friends of the Board

The SSB also provides the opportunity for people who wish to participate in a project but whose busy lives don't permit them to be a full time Board member, but can participate in a desired project as a Friend of the Board.

A friend of the board may also support the SSB in two ways. By helping financially or giving time and activity or to a particular project of choice.

If you feel the call to put ethics into action to preserve and expand our American Democracy, the Social Service Board is set up to energize, empower, and facilitate the ideas and needs of ethical people.

The hero is one who kindles a great light in the world, who sets up blazing torches in the dark streets of life for humanity to see by."

Felix Adler, founder of the New York Society for Ethical Culture

Ethics inspires authentic self esteem, motivates our dynamic social conscience, and demonstrates the love, care, and trust, which are the human glue of our multi-dimensional Democracy.

For over 130 years the New York Society for Ethical Culture has served our community through an affiliation with the United Social Services, Inc./Social Service Board. USS, Inc./SSB is a 501c3 secular association of dedicated people, which brings social justice through social service.

We welcome people like you, who share our faith in the future; people, who see the need to give social service and put Ethics into action and fulfill the challenging need of our times to build a more Ethical world.
